

Heating tapes

Standard and metal braided heating tapes

Technical data

Operating voltage:
230V / 240V
Tape width:
30mm
Heat conductor thickness:
4mm
Insulation:
Glassfibre
Cold ends:
1m 0,75sqmm
Protection class:
IP 20
Temperature range:
Up to 400 degr. C

Standard heating tape

The standard heating tape is available in lengths from 0.5 – 8.5m, with an approx. load of 150 W/m. All material used are non-magnetic and suitable for heating up to 400°C.

Heating tapes for 110V operation are available on request.

Products

Item	Length (m)	Load (W)
Heating tape S005	0,5	80
Heating tape S010	1,0	165
Heating tape S012	1,2	200
Heating tape S015	1,5	200
Heating tape S020	2,0	250
Heating tape S025	2,5	365
Heating tape S030L	3,0	300
Heating tape S030	3,0	400
Heating tape S035	3,5	350
Heating tape S040	4,0	600
Heating tape S050	5,0	750
Heating tape S060	6,0	850
Heating tape S075	7,5	1000
Heating tape S085	8,5	1200

Heating tapes

Standard and metal braided heating tapes

Technical data

Output voltage:
230V / 240V
Tape width:
14mm
Tape thickness:
11mm
Insulation:
Glassfibre
Metal braid:
Stainless steel
Cold ends:
1,0m 0,75sqmm
Protection class:
IP 20
Temperature range:
Up to 400 degr. C

Metal braided heating tape

Metal braided heating tapes have a grounded stainless braid to protect the insulating material. They are available in lengths from 0.5 – 9m, with an approx. load of 150W/m for heating up to 400°C. The tapes can also be ordered for 110V operation.

The tapes are supplied with a plug suitable for the Nordic and German market. Other plugs are available on request.

Products

Item	Length (m)	Load (W)
Heating tape MB003	0,3	36
Heating tape MB006	0,6	66
Heating tape MB011	1,1	150
Heating tape MB015	1,5	200
Heating tape MB020	2,0	250
Heating tape MB025	2,5	310
Heating tape MB030	3,0	400
Heating tape MB040	4,0	440
Heating tape MB055	5,5	675
Heating tape MB065	6,5	780
Heating tape MB075	7,5	1000
Heating tape MB090	9,0	1175
